CLEANING & DEBRIS REMOVAL

Prime House Flooring LLC will remove work-related debris generated by its services and leave the immediate work area broom-clean upon completion. General house cleaning, deep cleaning, dust removal from areas outside the work zone, and cleaning caused by pre-existing conditions are not included unless expressly stated in the Scope of Work.

⚠ V2_LOCAL — NON-PRODUCTION DATABASE ⚠

The homeowner is responsible for identifying and obtaining any building, condominium, association, or property-management approvals required for the project unless otherwise stated in writing. Prime House Flooring LLC will obtain contractor permits specifically assigned to it by law or expressly included in the Scope of Work. Work may be delayed until all required permits and approvals are in place.

WARRANTY

Prime House Flooring LLC warrants that its work will be performed in a professional and workmanlike manner. This warranty does not cover damage or conditions caused by moisture, water intrusion, structural movement, improper environmental conditions, normal wear, misuse, third-party work, manufacturer defects, or conditions outside Prime House Flooring LLC's control. Any manufacturer warranty applicable to materials is subject to the manufacturer's own terms and conditions.

UNFORESEEN CONDITIONS

The contract price is based on conditions reasonably observable before work begins. Concealed or unforeseen conditions—including damaged or unsuitable subfloors, hidden structural conditions, moisture, rot, previous improper installations, concealed utilities, or other conditions discovered after removal or demolition—are not included unless specifically stated. Any additional work required will be presented to the homeowner in writing through a Change Order before proceeding.

HAZARDOUS MATERIALS

Prime House Flooring LLC does not perform testing, abatement, remediation, or removal of asbestos, lead, mold, or other regulated hazardous materials unless expressly agreed in writing and legally authorized. If suspected hazardous materials are discovered, work in the affected area may be suspended until the condition is properly evaluated and addressed by a qualified party. Any resulting additional work, cost, or schedule impact will be documented separately.

CHANGE ORDERS

Any change to the Scope of Work, materials, price, or schedule must be documented in a written Change Order signed by both parties before the affected additional work is performed.

RELATED ENTITIES DISCLOSURE

No other registered home improvement or new home construction entity is disclosed for the members or owners of the Contractor.
